

The Paducah Evening Sun.

VOL. XXVI NO. 32.

PADUCAH, KY., SATURDAY EVENING, AUGUST 7, 1909

TEN CENTS PER WEEK

NO EXTRA POLICE WILL BE NEEDED, SAYS THE CHIEF

Board Adjourned to Monday
Night to Complete the
Appointments.

Three of Men Dropped Were
Not Doing Patrol Duty.

TWO PLACES ALREADY FILLED

"There will be no increase in the regular police force on account of Emancipation day celebration here Tuesday," said Chief of Police Collins. "It has not been customary to increase the force. The men will meet trains and be on duty wherever there is a crowd. No trouble has ever been experienced, but it is always anticipated on any occasion by the department and efforts will be directed toward having the men on the spot to quell any trouble in its incipency."

There are four vacancies on the force, although three of them make no reduction in the regular force of patrolmen, as none of the three was doing active duty; but the board of police and fire commissioners, as announced in the Evening Sun Thursday, was called to meet next Monday night to fill the four vacancies. Chief Collins has authority to put men on for extra duty, and may appoint four Monday morning, if he desires.

If no men are put on, the force would be short only one man, as Johnson and Hurley were incapacitated, and Will Baker, who has been off duty recently, never was doing patrol duty.

Four Men Tipped.
The following men are tipped for positions: S. G. Shaffer, a stationary engineer; R. C. Jones, an employee of the street department; W. C. Rickman, chaingang boss, and James Hart, machinist's helper at the Illinois Central shops. Everyone of these men are working and some of them are property owners. Mr. Rickman had been employed by the Roos Manufacturing company for a long time before entering the city's employ. They are all first class citizens.

INFANT DAUGHTER OF MR. AND MRS. WILL ORR DIES.

The infant daughter of Mr. and Mrs. Will Orr died this morning at 5 o'clock with whooping cough. The little girl was only 9 months old and had been sick a very short while. The funeral will be held tomorrow afternoon at 4:30 o'clock at the family home, 926 Harrison street.

Chaudet's Land Advertised.

Undivided interest in a tract of land in Marshall county of Alfred Chaudet will be sold September 6 at the court house at Benton to satisfy a judgment for \$25,000 given in favor of Nat. Frizzell, colored in the federal court. None of the defendants in the Birmingham raid appeared when the suit came up for trial in the April term. Frizzell sued Dr. E. Champion and others for alleged night rider outrages. Chaudet is said to own one-half of a 160 acre tract of land.

PADUCAH PARTY RETURNS FROM METROPOLIS LAKE.

County Physician L. E. Young, Mr. Lee Potter and about 35 other Paducahans returned last night from a week's fishing and hunting trip at Metropolis lake. It was a pleasant outing and they took advantage of the dove season, bringing down many.

No Lincoln Pennies Here.

The new Lincoln pennies being issued by the United States treasury have not made their formal appearance in Paducah, although a few citizens have possession of them. None have been received at any of the local banks and it will be several weeks probably before they arrive. The alterations to be made on the coins are in progress, and the first ones issued are said to be valued at 50 cents.

Capt. Slaughter Hero of Hour.

Capt. John Slaughter, of the Central fire department, fought a fire all by himself today at noon and extinguished it with no damage. While the chicken house at the residence of Henry Carroll, 632 North Sixth street, was being smoked to rid it of mites, the straw on the floor caught fire. The family rushed out to quench it, and Captain Slaughter, who was on his way from dinner, went to the rescue and worked in fireman style. No alarm was sent in.

C. F. Hawkins, who is connected with the Sun's contest, has returned to Mayfield.

Miss Evans Still Retains the Lead in the Evening Sun's Great Contest ---Closes Tonight at Nine O'clock

laveville Third.

The following named gentlemen will act as judges in the Great Contest: Mr. Solon L. Palmer, Cashier Bank of Benton; Mr. E. E. Bell, Asst. Postmaster, Paducah, and Mr. Louis Behout, and Mr. David Browning, together with Publishers will act as Judges.

The final day in The Sun and Associate Newspapers' Great Voting Contest finds Miss Mattie Evans, of Barlow, Ballard county, again in the lead in the published list of standing of candidates. Miss Evans votes 1,212,158. This represents the standing of candidates at the close of balloting yesterday at noon.

Another time Mr. James Langstaff of Paducah, votes second with a total of 1,142,125 votes. Miss Lexey Armstrong comes third with 846,372 votes, and Miss Carmen Andrews fourth with 825,707 votes.

Tonight at 9 o'clock the ballot books will be closed in The Sun office, and in the offices of all the Associate Newspapers, and at that hour this Great Contest will come to an end. Some splendid work is being done today, and the battle will not be won until after sun down. The Sun has no favorites; the best candidate wins. Success to them all.

When the books are closed at 9 o'clock tonight, the ballots and all the records will be placed in sealed envelopes and put away in vaults for safe keeping until Monday, when the judges will take charge, check over all the business done during the contest, count the ballots and award the prizes to the successful scorers. This contest has been a big one and the judges will have much to do, so it is not likely that the result will be known before Monday afternoon.

Candidates are again warned that all money must be in and votes issued before 9 o'clock tonight. Please turn in at the earliest possible moment. Remember the contest positively close at the hour named.

OLDS BUILDING COLLAPSES AND THREE PEOPLE KILLED

Lansing, Mich., Aug. 7.—One of the large steel buildings of the Olds motor works here collapsed this morning. One man was killed instantly and two probably fatally injured. Several others are under the debris. Adolph Martin, of Bay City, and William Haviland, of Lansing, are fatally injured. It is said it was caused by the weight of steel stored on the upper floors.

MRS. SUTTON ACCUSES ONE OFFICER OF SON'S MURDER

Annapolis, Aug. 7.—The direct charge of murder was placed against one of the officers who fought with Sutton. Mrs. Sutton named the one she thinks is guilty in a letter to a friend, but it is not made public yet.

I. C. Shop Picnic

Employees of the Illinois Central railroad shops are eagerly awaiting the definite arrangements for the annual railroad picnic this month. Cerulean Springs has been selected and a special excursion train will carry the Illinois Central employees there, leaving early in the morning and returning at night. Hundreds will make the trip besides invited friends. The committee in charge of the picnic has not decided upon the date. It was first suggested for August 17, but it is believed it will be held on August 21 or 22.

QUEER STORY.
Chicago, Aug. 7.—Benjamin Porter, the insurance agent who disappeared last May, short \$200 in his accounts, and whose wife is dying because of worry, wrote a letter to a former employer, saying he was assaulted in Chicago and kept a prisoner two days and was started for San Francisco, escaping en route. He is now in Colorado, and says he is afraid of murder if he discloses his hiding place.

CHICAGO STRIKE WILL BE SETTLED WITHOUT TROUBLE

Chicago, Aug. 7.—It is probable that the strike controversy will be settled this afternoon. Presidents of the surface lines will attend a meeting of the employees and concede their demands. The maximum rate they will allow is 30 cents an hour. It was not decided what action will be taken on the "open shop."

President Milton, of the City Railway company, issued a statement, saying what the company would concede to prevent an interruption of service. He said he desires peace. He declared numerous accidents are due to a disturbed condition of the men's minds.

President Hitten announced that the wage scale permits the men to get 25 cents an hour the first year, and one cent increase each year thereafter for six years. The highest possible is 30 cents, an increase of 1 1/2 cents an hour on an average over the present scale.

WAYNE LONG GETS TWO YEARS IN PEN FOR TAKING LIFE

Murray, Ky., Aug. 7. (Special).—Wayne Long, who killed a farmer of the name of Bannister, in a quarrel over Bannister's daughter, was found guilty by a jury in the circuit court and given two years.

Murders His Wife.
Madisonville, Ky., Aug. 7. (Special).—Roland Rich shot and killed his wife in this county as the result of a quarrel. She was formerly Mrs. Baxter Ashby, wife of a horseman.

Crenshaw May Recover.

Benton, Ky., Aug. 7. (Special).—Both Charles and Boyd Lofton are out on bail and Ivy Crenshaw, who was stabbed by one of them, is recovering. The preliminary hearing of the Lofton boys is set for August 17, when it is hoped Crenshaw will be able to attend. The fight occurred Saturday night, July 31. It is claimed that Boyd Lofton and Crenshaw were fighting when Charles Lofton stabbed Crenshaw. Charles Lofton was immediately arrested. Boyd Lofton later surrendered and both gave bond.

THAW WILL NOT BE SENT TO MATTEAWAN AT ALL EVENTS

White Plains, N. Y., Aug. 7.—After court was called Jerome opened by summing up the testimony and declaring every witness told the truth except possibly Evelyn Thaw. He defined paronia as described by the state alienists, saying Thaw fitted the description perfectly. Judge Mills said he certainly will announce his decision Thursday. It is believed that if he finds Thaw insane he will not send Thaw to Matteawan, but to a private asylum, where he can be observed and released when certainly sane.

MR. SILAS MITCHELL AND FAMILY GO TO ENGLAND

Mr. and Mrs. Silas Mitchell and daughter, Miss Edith Mitchell, will leave Tuesday morning at 1:30 o'clock for New York City and after a few days' visit there will sail for England. They will be gone several weeks and will visit relatives in London, Manchester and Liverpool.

Mr. J. L. Thompson will leave tomorrow morning for St. Louis and Chicago to look over the fall clothing styles.

WRIGHT'S RECORD FOR ENDURANCE EXCEEDED TODAY

Young Frenchman Remains
in Air Longer by Several
Minutes.

Situation in Stockholm Still
Critical.

ANARCHISTS ARE WORKING

Paris, Aug. 7.—The aeroplane record for a sustained flight was broken this morning by Roger Somer, a Frenchman, at Mourmelon, in 2 hours, 27 minutes and 15 seconds. That was nearly 10 minutes longer than the Wright record.

Somer maintained a height of from 60 to 100 feet. Speed in the early part of the flight was interfered with by a sagging line of the under plane, amounting almost to a pocket. It was finally cut by the propellers and the speed was greatly increased. He is a new-comer in the navigation, though his recent flights impress everybody that the bi-plane of the Volson type is one of the best yet seen in operation. Wednesday he flew for more than two hours. He ascended today at 3:14 a. m. while the moon was still shining brightly.

Despite the early hour, hundreds saw the flight. When the Wright record was eclipsed there was a great cheer. He alighted and was smothered in congratulations. The crowd went to Somer's tent, drinking his health with champagne. He is a former champion bicyclist and automobile racer. His first attempt at flying was July 1, for five miles.

Situation Better at Stockholm.

Stockholm, Aug. 7.—Anarchists are trying hard to instill courage into the strikers. Recognized anarchists this morning were in conference with labor leaders. The authorities are apprehensive. No serious clashes have yet taken place between strikers and soldiers, but leniency by the latter in small outbreaks indicates they are in strong sympathy with the strikers and may not fight in a crisis. Leaders of the strike are trying to maintain order, but there are depredations despite it. Strikers are parading the streets and singing Marseillaise and other foreign national songs. Grave diggers have returned to work. It is believed the railroad employees will not strike. Even if they do the government says it will operate the railroads. Food supplies from other cities are relieving starvation.

Robbers Burn Town

Mexico, Mo., Aug. 7.—The small town of Auxvasse, twelve miles south of here, was set on fire by robbers at midnight Friday. It looked as if the entire town would burn but an automobile load of dynamite was rushed to the scene and demolished the buildings adjoining the burning one. A bucket brigade also is helping and only one building was lost. It is believed the robbers escaped with nothing.

DIVISION OF CENSUS MEN.

Two Parties Will Share the Pie in Tennessee.

Washington, D. C., Aug. 7.—Senator Frasier called at the white house to say good-bye to the president. The senator chatted with him about the appointment of census supervisors.

The president said he had been thinking it would be best to discontinue the appointments of politicians in the southern states, but he had not reached any definite conclusion. He said he would take up the matter after he reached Beverly, Mass., where Census Director Durand would go for the purpose of going over the appointments with him.

Director Durand has told Tennessee representatives within the last few days that the ten supervisors for Tennessee would, as he understood the president, be equally divided between the two parties.

Nominations Hung Up.

Washington, Aug. 7.—With the adjournment of congress, a number of nominations which were sent to the senate by the president will not become effective, the senate having failed to act upon them. To make the appointments effective, the president will have to designate the nominees as "recess" appointments. Among the appointments which were not acted upon are: Second secretary of the embassy, Vienna, Austria, Roland B. Harvey; secretary to legation and consul general to Roumania and Serbia and secretary of the diplomatic agency in Bulgaria, Nelson O'Shaughnessy.

Beverly, Mass., Becomes Capitol For Summer---Inconsistency Found In Tariff Schedules On Leather

Leper Is Cured, According to
Pension Department, Which
Dropped Him From Roll---
Kentuckians.

Beverly, Mass., Aug. 7.—With the arrival of Taft here at 8:45 this morning, Beverly becomes the summer capitol. There was a big reception when he stepped from the private car "Olympia." The Chilean and Cuban ambassadors were among the reception committee.

President Taft took the official automobile and, with Mrs. Taft and her sister, Mrs. Lewis Moore, drove to the Evans estate on Burgess Point. Mayor Trout went with them. Secretary Carpenter immediately took charge of the executive offices in the Board of Trade building. The work here will be done by Carpenter, Assistant Secretary Foster and Clerks Webster and Sindman, Telegrapher Smithers and the colored messengers from Washington.

Congress failed to correct the "joker" in the leather schedule, and this morning the treasury department discovered a glaring inconsistency. Paragraph No. 20 calls for 20 per cent ad valorem on manufactured goods, and 461 for 35 per cent. It will have to be remedied by interpretation of the custom officers.

How Kentuckians Fare.

The members of the Kentucky delegation were assigned to house committees as follows:

Representative James — Banking and currency and elections No. 1.
Representative Stanley — Agriculture.

Representative Thomas — Irrigation of arid lands and Pacific railroads.

Representative Johnson — District of Columbia.

Representative Sherley — Appropriations.

Representative Rhinock — Expenditures in the war department and industrial arts and expositions.

Representative Cantrell — Public buildings and grounds and ventilation and acoustics.

Representative Helm — Expenditures on public buildings and insular affairs.

Representative Bennett — Elections No. 2; pensions and revisions of the law.

Representative Langley — Census, expenditures in the navy department industrial arts and expositions.

Representative Edwards — Expenditures in the state department; invalid pensions and immigration.

Washington, Aug. 7.—The United States government is on record that leprosy is not an incurable disease. The pension bureau just removed from the rolls John Early, a former soldier, who, after being quarantined here a year as a leper, went to the skin and cancer hospital in New York. He was receiving \$72 a month. Recently on hearing Early was discharged because he was cured. Dr. Albert W. Roome, medical examiner of the bureau, went to New York, reporting that Early was working in a store under an assumed name without a trace of leprosy.

OLD FIGHTER AMUCK.

Dayton, Ohio, Aug. 7.—Edward Leonard, a Civil war veteran, an old Indian fighter, shot three men at the Soldiers Home here today, killing one. It is supposed he had a wrangle with Colonel Eastman, whom he shot from behind in his office. Then running down stairs, he shot Captain Arnold and Sergeant Wainwright. Both are seriously wounded. Eastman is dead.

Putting Maine Out of Commission.

Portsmouth, N. H., Aug. 7.—Work towards placing the battleship Maine out of commission for the purpose of installing the new boilers, is progressing rapidly here at the navy yards. There is a series of repairs, amounting nearly to a general rebuilding. For this purpose almost \$500,000 is available. It is estimated it will take at least a year.

PROMINENT MEN WILL ATTEND THE GOOD ROADS MEET

Mr. S. A. Fowler received the program this morning of the Kentucky Good Roads association, which will hold its second convention and session in this city August 19. This convention promises to be one of the most interesting and at the same time helpful meetings ever held in this city. The city probably will be well represented by farmers and automobile owners, as they will put forth their utmost efforts to obtain better roads in western Kentucky. The meetings will be held in the council chamber of the city hall. Following is the program:

Session of board of directors, 10 a. m.

Adjourn for lunch.

Open meeting, 2 p. m.

Speeches on Good Roads and the Bosworth-Wyatt amendment by Hon. M. C. Rankin, commissioner of agriculture; Senator Conn Linn, Hon. Ben L. Bruner, secretary of state; Senator J. W. Newman, secretary Kentucky State Fair.

Five minute talks by representatives of various counties present and others.

Adjournment.

Near Beer Tax Increased.

Atlanta, Ga., Aug. 7.—The senate finance committee this afternoon, by a vote of 7 to 5, retained the increased taxes on near beer dealers, but struck out the paragraph permitting housewives to manufacture domestic wines for their own use.

CITY HALL TOWER WILL BE 117 FEET FROM THE GROUND

Architect Has About Finished
Plan and Is Working On
Specifications.

New Fire Station Will Be Next
In Order.

THE ADDITIONAL THIRD STORY

Having completed the full plans for the third story of the city hall and the inside remodeling of the present first and second floors, Architect A. L. Lassiter is head over heels in the work of drawing up the specifications. He stated this morning that he expected to have them finished by next Tuesday and they will at once be turned over to the joint finance and public improvement committees of the general council and bids advertised for.

Mr. Lassiter probably will not complete the specifications for the new central fire station before week after next. After all bids are in and the contracts let the old central station on North Fourth street will be sold. It is understood that there are several who desire to purchase the valuable piece of property.

When the third story is added to the city hall the pinnacle of the tower will measure 116 feet from the street. The body of the building, counting the addition, will be over 60 feet high while the center of the clock dial will be 8 1/2 feet from the ground. The dials are to be increased in diameter from 56 inches, as at present, to 72. This is necessary owing to the height.

PRISONER LEAPED TO DEATH.

Was En Route From Colorado to Arkansas—Jumped From Train.

Fort Smith, Ark., Aug. 7.—John H. Shaw, who was being brought from Greeley, Col., back to Booneville, Ark., where he had jumped bail after having been indicted on four counts for forgery and disposing of mortgaged property, jumped head foremost from a Rock Island passenger train going 35 miles an hour, two miles west of Wewoka, Okla., near Shawnee, shortly after noon. Shaw alighted on his head on an old tie which had been removed from the track, splitting his head open. Sheriff J. T. Nichols, of Booneville, who was taking Shaw back, stopped the train and returned to where the injured man was lying still handcuffed.

Bungalow for Mme. Nordica.

New York, Aug. 7.—George W. Young, the New York broker, who recently married Mrs. Nordica in London, is having built for her at Deal Beach, N. J., a \$25,000 bungalow.

MISSING JUDGE FINALLY FOUND

Clarkson Had Been Wandering Three Weeks.

Kenosha, Wis., Aug. 7.—Judge Joseph R. Clarkson, who disappeared July 14, was found at Sabula, Iowa, by John Burns, a close friend, who had been searching for Clarkson since he left home here.

Burns' telegram gave no details of the judge's three weeks' wanderings. It was near Sabula that Clarkson was found 20 years ago when he disappeared from Omaha. After returning to Omaha that time the judge could remember nothing of the weeks wherein he was walking about the country.

Clarkson was judge of the superior court here for several years.

Income Tax Tabled.

Atlanta, Ga., Aug. 7.—The Georgia senate this afternoon tabled the resolution proposing to ratify the income tax amendment to the federal constitution. It is expected that the effort to ratify the amendment will come up again in the senate before final adjournment.

Strikers' Demands Ignored.

Pittsburgh, Aug. 7.—The Pressed Steel Car company will ignore the demands of the 3,500 employees on strike that the wage scale in effect in 1907 be restored, that overtime in certain ratio be paid and that an official of the plant be dismissed.

Typhoid in Knoxville.

Knoxville, Tenn., Aug. 7.—At the city council meeting the report was made of the fact that there are sixty cases of typhoid fever in the suburbs and forty in the old city. Strict sanitary regulations were advised to prevent an epidemic, which seems to threaten.

Moss Heirs Will Sue Railroad For Damages

Children and heirs of the late Bennett Moss, of Woodville, who was killed by a freight train near Heath, June 30, will, through the administrator, J. H. Massie, institute suit in the circuit court next week against the Illinois Central to recover \$15,000 damages.

The accident happened near Heath about 6:45 o'clock in the morning. Mr. Moss was driving toward Paducah and when crossing the railroad near Heath his mule and rig were struck by freight train No. 856, in charge of Engineer McCarty and Fireman Eldson. Moss sustained a fracture of the leg and internal injuries, from which he died two hours later at the Illinois Central hospital here.

In the suit it is claimed that no signal was blown by the engineer for the crossing. The Illinois Central will present several important witnesses to show that there was no fault on the part of the company.

The children of Moss are: Mrs. Nannie Stone, Mrs. Ada Rudolph, Messrs. Tom, Robert and Frank Moss, of near Woodville, and Walter Moss, of Oklahoma. The suit will be filed by Attorney Thomas Crice.

VIVIANO CHILDREN THOUGHT TO BE SECRETED IN CHICAGO

Chicago, Aug. 7.—Local police believe Grace and Tommaso Viviano, the kidnapped St. Louis children, held for \$25,000 ransom, are here. Two men were seen in the Italian quarter early this morning hurrying two children, a boy and girl, along the street. They answer the description of the kidnapped children. Both were crying. The apparent eagerness of the men to get out of sight aroused the police suspicions and Chief O'Brien detailed a special squad to search the Italian quarters.

World's Wheat Crop.

The wheat season is far enough along to make forecasts of what the world's probable yield will be for 1909. There can be no great mistake in placing it at 3,250,000,000 bushels. Last year the yield was 3,173,000,000 bushels. The increase of 77,000,000 bushels will easily be accounted for in Canada, and Russia in both of which places prospects are excellent. The shortage in Argentina, compared with the yield of the preceding year, may be offset by the increase in India, and Danubian gains will probably balance any

shrinkage chargeable to Central Europe. Production by continents for the latest three years shows that the declining tendency during this period was most manifest in North America and in Europe. The continents of minor production indicated increases, or probably held their own. The totals for six continental divisions, in bushels, as given by the department of agriculture, were as follows for 1907-1908 inclusive (000 omitted):

	1907	1908
N. America	787,136	739,094
S. America	216,919	178,636
Europe	1,751,696	1,618,476
Asia	306,992	466,710
Africa	58,341	64,937
Australia	51,730	74,297
Totals	3,172,814	3,142,150

The Bishop's Choice.

A celebrated Anglican divine, the late bishop of Rochester, who had been ailing for some time, decided to consult Sir Frederick Treves, the noted surgeon. After a careful examination Sir Frederick pronounced his verdict, and added, "Your lordship must go to Algiers or some winter resort on the Riviera."

"Impossible," replied the bishop. "I have too much work to get through."

"Well," said the doctor, "you must make your choice. It is either Algiers or heaven."

"Dear me," exclaimed the bishop, with a sigh; "then I suppose it must be Algiers."—Los Angeles Herald.

Daily Thought.

These life days of our living
Are days of God's good giving.
Where death smiles soft on danger
And life scowls dark on shame.
—Swainburne.

THE POLICE SHAKE-UP.

Somebody is making himself ridiculous about a reduction in the police force, leaving the city without adequate police protection. There are about as many men on duty now as there were before the last meeting of the police and fire commissioners, when the shake-up took place. Merry, Morris and Langston only were on duty and two places were filled that night. Johnson and Hurley were physically incapacitated long ago and were not patrolling. Will Baker never has been patrolling and for sometime has not been doing any work on the police force.

THE TARIFF.

The tariff battle is over and congress has adjourned. No widespread calamity has followed the enactment. The business of the country was not thrown into an anticipatory panic, and confidence never hesitated during the debate. The rates have been lowered—not as much as the free traders would wish—but placed where industries of monopolistic tendencies cannot take advantage of prohibitive rates to mulct the consumer. No doubt there are some jobs in the tariff, even the flour spar interests got a slice of it, but the Republican party once and for all defined Protection and hereafter tariffs must be revised according to that definition and that is something. Democrats in congress declared free trade to be bumcombe except the free trading of their votes for concessions in rates, and that is something.

Between free trade and high tariff there is a broad field of plunder in which representatives on both sides of the house mingled fraternally. It is too much to be expected that a perfect, reasonable and strictly honest tariff should be secured under existing circumstances. It is an improvement on the Dingley bill and escaped the evils of the famous Wilson-Gorman bill.

More important in the long run than the rates, are provisions which President Taft secured in the bill. They were the corporation income tax, the tariff commission and the maximum and minimum schedules. In considering the bill, farsighted citizens will see a great advance in tariff legislation in this measure. The corporation tax provides for federal inspection of the books of interstate commerce organizations, thus throwing light into the darkest recesses of the most powerful stock manipulators and trusts. The beneficial results of the disclosures will go further than the few additional millions to the federal income.

The maximum and minimum schedules make it obligatory on the executive department to give the minimum rates to all countries, which admit goods from the United States on the same basis as the most favored nation, and place the maximum rates on goods from all na-

tions, which discriminate against American made goods.
The tariff commission is an executive body, which will investigate industrial conditions here and abroad with reference to the tariff differentials. It has no power to revise the tariff; but its reports will go to the people and to congress and the moral effect of the commission's work will be quite as persuasive as if it had more definite power over the schedules.

In addition to these benefits, the Republican and Democratic congressmen and senators, who assumed the championship of special interests, were exposed before their constituents. The whole session has been illuminating and the people can go about the tariff business hereafter more intelligently.

THE HEALTH DEPARTMENT.

The dispute over the claims of Drs. H. P. Sights and W. J. Bass for extra pay for their work during the small pox crusade, has brought to light an unfortunate attitude toward the city health department. Members of the general council do not seem to take the health department seriously. These physicians were deputed by the department to vaccinate people, and they gave valuable time to the work, actually neglecting their own private affairs in the interest of the city. Other physicians declined to assist in the work systematically for the reason that they would have to neglect their business, and the work was extremely disagreeable.

The functions of the board of health are the most vital of all to the city and citizens. Prevention of disease is the watchword of these times, and to that end the board of health is directing its efforts. No citizen will deny that his health is more important to him than any other material interest. Yet, here is the special department of the city government, which concerns itself with the health of the community, and its orders and word are not given any consideration at all.

We hope to attract business and industries here and appeal to the personal interests of those, whom we desire to interest. If a man's first consideration is his health, we see how the city health department becomes of first importance in the development of the city industrially and commercially.

We must revise our attitude toward the department. The city clerk is given money to employ an assistant in the rush work on the tax bills without a murmur. The city treasurer was given money with which to employ an assistant on his books this summer; but when the board of health orders two physicians to neglect their practice and devote their time and skill in an unforeseen emergency to avert an epidemic of small pox, we hear long-winded growls from self-appointed watch dogs of the treasury, who did not so much as sniff the air, when other city departments asked for assistance to perform their routine duties.

STATE PRESS.

Owensboro Inquirer.

Judge Watts Parker gave a portion of the office holders of Lexington and Fayette county just such a "swatting" as all of them deserved. The elections in Lexington have become as notoriously corrupt as those of Louisville. The Lexington politicians seem to have been taking lessons under Col. John Whallen and his coterie of ringsters of Louisville, and Lexington can now pull off an election that is enough to make the Whallen-Courier-Journal gang turn green with envy.

Livingston Banner.

The subject depravity to which the Democracy of Louisville has fallen is appalling. To think of a man who would put to shame Abe Reuf being now the leader of Democracy of the great metropolis with old Marse Henri backed up behind is just a little more than anyone would have ever dreamed.

The Boss of Buckingham, who was openly caught bribing a state senator in 1900 and indicted for it, is now in the saddle and we are told by Waterson that he, Waterson, stands in the highest ideals in life and in politics. If it were not a fact, that is being demonstrated every day, that the Courier-Journal is parading John Whallen, the Buckingham boss, and bolter, who has not for 10 years supported a single Democratic ticket, it would be denounced all over the state, should it have been told that the Courier-Journal was supporting such a man. It would be impossible to conceive of a lower depth of degradation to which the party might sink.

SOME STORIES AROUND TOWN.

The first aeroplane to fly in Paducah is here. Although it is a miniature, it is built along scientific lines and for lack of power and pilot it would rival the Wright brothers' machine. It is the property of Oscar Cheek, and in construction resembles the Curtis alrship, "June Bug." The motive power is supplied from a rubber band wound by a thumb screw with a spring attached. After the rubber has been wound tight the clutch is released and the little flyer makes a circuit high in the air, coming down when the propeller stops. It is about 18 inches in length and 5

clips—especially when you can purchase eight ears for a nickel! But the truth of the matter is that this corn-cutting had been going on for over a week, and the Paducah police department had been so notified and kindly requested to do the needful—but no results. Neighbors kept informing us, by phone and personally that one party in particular was not satisfied with an ordinary number of ears, but was carrying it away in SACKS daily.

I trust the readers of The Sun many of whom are my personal friends, will pardon my seeming offense of trying to protect my own property by personally going over to my cornfield at 4:30 yesterday to see if I could locate the guilty parties. At about 5:30 my efforts were rewarded, and I caught the culprit with his arms full of corn, his half-filled sack lying near. He was brought to my office, the police notified, and in about 30 minutes the patrol wagon arrived bringing Patrolman Potter to take my prisoner in custody. (Maybe he "wobbled off those few squares" then!)

Case came up in police court at 9 and prisoner waived examination before Police Judge Cross, being turned over to County Judge Lightfoot. For some unaccountable reason that official saw fit to set him free; why we hope he will be kind enough to inform us all, as we feel sure many others besides ourselves will be "de-lighted" to learn the course of reasoning that prompted such a procedure.

"Surely justice seems to have flown from our courts—to use in part the words of a recent editorial in The Sun—and just so long as each individual or group of individuals is thus literally forced to secure satisfaction for himself or go without, just so long will we have mob law and all other sorts of lawlessness with which to contend.

The writer called at Judge Lightfoot's office, leaving a request that he be as lenient with the prisoner as the law would permit, but had no idea the ends of justice would be entirely defeated.

All the above in the very best of spirits. Sincerely,
JAMES A. MURRAY.

DUN'S REVIEW.

New York, Aug. 7.—R. G. Dun & company's weekly review of trade says:

"Every important development of the week confirms the revival of trade, which set in even with the tariff under discussion, and which has no vital obstacle to oppose it now that the tariff bill has passed both houses of congress and has become a law.

"A keener interest is manifested in the iron and steel market each succeeding week. Buyers are operating with greater freedom and producing interests display more independence in making commitments. Higher totals of pig iron production and other evidences of rapid expansion appear. Numerous inquiries have been received for orders running into 1910, but little actual business has been done. The expected advance on plates and shapes was announced, the ruling price now being \$1.40 Pittsburgh. This reflects the broadened demand for cars and other equipment, one prominent railroad contracting for 8,000 cars, while many other orders are pending.

"Dry goods jobbing trade is expanding, and among large Western distributors collections are excellent and credit conditions sound. The retail trade is beginning to come to the markets at the central distributing points, but operations thus far have been conservative. The primary cotton goods and cotton yarns have been unsettled by the fluctuating values in the raw cotton market, following a low condition report by the government. The demand for men's wear for spring continues to be large, and there is still a good call for fall fabrics. The largest mills are fully supplied with business.

"The market for hides and leather is still unsettled, owing to price readjustments to the new tariff bill admitting hides free of duty. Foreign hides have advanced 10 per cent or more, and domestic hides have declined less than 5 per cent. The leather market continues very dull. Trade in shoes continues moderate, and most buyers who were in Boston have bought fewer shoes than they intended, and have delayed the placing of orders for later delivery until it is more certain what effect the changed duties in hides, leather and shoes will have on the market."

Philadelphia, Aug. 7.—Abram C. Eby, the mayor of Burkeville, Va., who was committed to jail in default of \$10,000 bail on the charge of sending letters to the president of the Pennsylvania railroad threatening the destruction of railroad property by means of high explosives unless \$45,000 were paid him, entered into communication with friends at Burkeville, Va., to secure bail.

COWBOY WAS KING.

Adventurous Texans Tell of Experiences in Fiji Islands.

Kansas City, Aug. 7.—Joe Carr and Edward Burns, cowboys from the Panhandle, arrived at the Union station today en route home after six years' adventure in South Africa.

They were made king of the islands and Burns prince. The belief of the islanders that the Texans were gods prevented them from being eaten, as they were cast among cannibals.

They kept signals flying two years before a ship came to their rescue.

They exhibit oddly tattooed faces and South Sea weapons as proof of their story.

CHARGED WITH KILLING BABY.

James Pullman and May Williams of Mt. Carmel, Ill.

St. Louis, Aug. 7.—James Pullman and May Williams, both of Mt. Carmel, Ill., charged respectively with murder and being an accessory.

The victim was a four months old baby which Pullman and Miss Williams tried to have adopted in East St. Louis.

Failing in this they boarded a trolley car for Belleville. Half way between the towns Pullman took the baby and jumped from the car. A deputy sheriff questioned the girl and when Pullman arrived at Belleville later without the baby he was arrested. A search revealed the body of the child with the skull crushed and half buried in a pond near where Pullman left the car. The news caused excitement and it was only after considerable argument with a crowd of angry farmers that the prisoners were landed safely in jail.

They were doubtless murdered for the purpose of robbery. Both had money when they left on a fishing trip last Saturday. Neither had a cent when their pockets were searched today.

The bodies have been brought to this city for interment.

To the Creditor.
(A Toast by Oliver Herford.)
Here's to the Creditor! Long may
he reign.
May his Faith never waver, his Trust
never wane;
May the Lord make him gentle, and
gracious, and gay,
Yet quick to resent the least offer of
pay—
May he soften his heart, as he soft-
ened, we've told,
To the Israelites' "touch" the Egyp-

And when on his last long account
he shall look,
The angel will say as he closes the

"The Lord gives you Credit for Credit
you gave!"
So here's to the Creditor—long may
he waive!

REGATTA ON THE DETROIT RIVER

THE NEW YORK ATHLETIC CLUB
WINS MAIN EVENT.

Finish Extra Close—Three Shells
Crossed the Line Within Length
In Four Oared Race.

SEVERAL THOUSAND SEE RACES

Detroit, Aug. 7.—Canada and the
east shared winning honors in the
opening events of the 17th annual
regatta of the National Association of
Amateur Oarsmen held on the Detroit
river. Conditions were perfect and
the racing splendid. Thousands lined
the shore of the course which is a
mile and a quarter long off the shore
of Belle Isle. Many occupied boats
along the outer edge of buoys mark-
ing the four hundred feet width of
the course. The oarsmen rowed with
a three mile an hour current.

The main event of the day was the
international senior four oared shell
race which went to the New York
Athletic club. Three shells crossed
the finish line so close together that
it was unknown which won until the
official announcement. The Ottawa
Ontario Rowing club crew got a lead
when the six shells started and for
four-fifths of the course the Canadian
held it with the Wahnetta Boat club,
of Poughkeepsie, N. Y., and the Vespers
of Philadelphia, close behind. The three
shells crowded dangerously close half
way down and forced the New York
Athletic club to drop back to avoid
being bumped. The New Yorkers fell
in behind the leading trio and when
the pack had told on them spurred
ahead. The Ahrendel, crew from
Baltimore also made a fine burst and
fought it out in the last two hundred
yards, with the Ottawas so close that
from the club house the three ap-
peared parallel. The New Yorkers
won by less than half a length. Balti-
more a few feet behind, and Ottawas
not a length farther back.

In the intermediate double shells
the Arundels won easily by five
lengths. The Harlem Rowing club's
pair had a cheap victory in the senior
double scull race. The Hamilton
Rowing club outclassed the four of
the Detroit Boat club in the inter-
mediate four oared shells.

Summary.
Intermediate double scull shells—
Arundel Boat club, Baltimore, won;
Springfield Boat club, Springfield,
Mass., second. Time 7:52.

AN ITCHING PALM

No Cure for It. Other Forms of
Itching Preferable.

There is no cure for an itching
palm—the money kind. Even pos-
sibly, the new skin discovery, cannot
heal it. But when it comes to ecz-
ma, the most annoying of itching
skin troubles, poslam will stop the
itching at once and cure the worst
cases in a few days. So with hives,
rash, scabies, split toes, piles, and
scaly scalp, all of which are differ-
ent forms of eczema, accompanied
by severe itching and caused by
imperfect digestion and careless diet.
Poslam comes in two-dollar jars,
but fifty cents' worth will answer in
curing any of the diseases mention-
ed. It can be had of any druggist.
Gilbert's and R. W. Walker & Co.,
make a specialty of it.

That results are immediate will be
amply demonstrated overnight by
the use of the experimental sample
which the Emergency Laboratories,

NEW SENSATION IN SUTTON CASE

LETTERS BY THE DEAD MAN'S
MOTHER WILL BE READ.

Marine Corps Officers Are Made Ob-
jects of Delicate Charges in These
Letters—Introduction

CAUSED AN UPROAR IN COURT

Annapolis, Md., Aug. 7.—The re-
appearance on the witness stand of
Mrs. James N. Sutton, mother of
Lieutenant Sutton, of the marine
corps, whose tragic death is being in-
vestigated by the naval board, pre-
cipitated a heated controversy be-
tween the lawyers on all sides, which
ended in a prolonged private confer-
ence of the members of the board
and brought the day's proceedings to
an abrupt ending.

After Judge Advocate Leonard
called Mrs. Sutton to the stand, he
offered several letters which he said
she had written containing serious
delicate charges against the young
officers of the marine corps who ap-
peared as defendants. Leonard said:
"It is my painful duty to offer these
letters in order to enlighten the court
on all matters pertaining to this in-
quiry." Henry E. Davis, counsel for
Mrs. Sutton, strenuously objected on
the ground that the letters were in-
relevant to the inquiry and of a per-
sonal incompetent nature as evidence.
"It is inconceivable that the judge
advocate attempt to force Mrs. Sut-
ton into such a position before this
board," said Davis.

Unique and Cruel.

These letters are not offered to as-
sist in determining how Sutton met
his death. That the letters contain-
ing, perhaps, extravagant statements
of a mother with a stricken heart
over the death of her son, should be
read before a curious world, is indeed
unique and cruel.

Major Leonard asked that Davis'
remarks implying lack faith on his
part be stricken from the record.
"I would have Davis remember,"
he said, "that the hallowed grave of
the dead son is no more sacred than
the reputation of the living officers,
and there are many such reputations
at stake here." Leonard insisted
that the court had a right to inquire
upon what grounds Mrs. Sutton made
the statements in the letters. Birney,
counsel for Lieutenant Adams, pro-
tested that Mrs. Sutton had tried to
avoid her true position in the pro-
ceedings, and urged that the letters
be read. Commander Hood, pres-
ident of the board, ordered the court
closed and conferred privately with
the members of the board and the
judge advocate.

Upon resuming Hood announced
that the letters would be read in
closed court to the interested parties
and their counsel.

KALAMAZOO RACE SEASON CLOSES

TWO MINUTE PACING EVENT
WAS PRETTIEST RACE.

Was Won By the Eel, Who Was Fav-
orite Throughout—Defeated
Hedgewood Boy.

VETERAN COUNTRY JAY WINS

Kalamazoo, Mich., Aug. 7.—The
Grand Circuit meeting wound up
with great racing and the fastest
heats of the year. The two minute
pace brought out four starters and
was the first clash of the Eel with
the free-for-all brigade. The Cana-
dian horse was the favorite and jus-
tified the opinion in which he was
held. The first heat saw Hedgewood
Boy trail the Eel all the way. In
the stretch Hedgewood Boy got as
far as the Eel's flank but hung there
until he broke, the Eel winning
under a drive.

Hedgewood Boy broke on the last
turn in the second round and Cita-
tion and Aileen took up the chase.
It was a spectacular finish and the
Eel won by a nose from Citation
while she beat Aileen. Wilson was
much. The time is the season's
record and within a quarter of a
second of Jot Patchen's stallion record
for two heats.

The 2:10 trot also proved a hard
race and the veteran County Jay
lasted just long enough to get the
decision.

Summary.
2:09 pace, \$1,000. Five starters:
Walter Hall, Sir Milton, Prince D.
Time 2:08 1/2.
2:11 trot, \$3,000. Eight starters:
County Jay, Carroll, Henry Seter.
Time 2:09 3/4.
2:00 pace, \$1,500. Four starters.
The Eel, Citation, Hedgewood Boy.
Time 2:00 1/4.
2:04 trot, \$1,000. Three starters.

Mac. Time 2:15 1/4.

State Department is Overcrowded.

Washington, Aug. 7. (United Press)—Somebody has said—the same somebody that is always blamed for the things you are afraid to say yourself—that the United States government is going to play hob with its foreign relations if it doesn't get busy and treat the representatives of foreign powers with more consideration. The state department is now so big that it cannot get into the space allotted to it formerly. One by one it has occupied the rooms left to it in the big gray state, war and

navy building after the war and navy departments took what they wanted. Now there are no more rooms to occupy and the foreign relations suffer thereby.

If the French ambassador comes to see Secretary Knox he has to wait out in the corridor. If Count von Bernsdorff wishes to say good-bye to Mr. Ade, he must drop his hat on a table and walk up and down the hall unless he chooses to sit on the radiator—and the radiator is high and difficult to climb. And while Ambassador Bryce is cooling his heels outside the secretary's office, a Virginia tourist with a wife and two children is as likely as not to happen along and ask him where they keep the Declaration of Independence.

The diplomatists as a rule are remarkably even tempered. They usually accept their lot graciously and do not complain, but it is a safe bet that if they ever get the chance they will take a gentle whack at the system which puts them on a par with a Western Union messenger boy when they come to confer on matters of state.

It's nobody's fault. Successive secretaries of state have tried hard enough to remedy the condition. They have asked congress for new quarters time and again. But congress has been so busy looking after the marble palaces used as house and senate office buildings that they haven't had the time to look into the state department matter.

It's curious, too, how differently ambassadors and members of congress look at things. The diplomats wait patiently, some of them for hours, keeping out of the way of the messengers and tourists, without a murmur. But, if a congressman from the middle west doesn't get in to see the secretary forthwith, he raves up and condemns the whole department and swears inwardly he'll vote against every appropriation for the department that is put up to congress.

RIVER NEWS

The stage of the river this morning at 7 o'clock was 9.8, a rise of .7 since 7 o'clock yesterday morning. Weather clear and east wind.

ARRIVALS—Birmingham from Tennessee river yesterday afternoon; Kentucky from Metropolis at 3 o'clock yesterday afternoon; George Cowling from Metropolis this morning and afternoon on time; Chattanooga from Evansville and way

landings late tonight; Dick Fowler from Cairo tonight; Royal from Goleconda this morning at 10 o'clock; Bettie Owen from Brookport and Illinois landings this morning and afternoon; City of Saltville from St. Louis last night at 8:30 o'clock with a big trip.

DEPARTURES—Birmingham for the Tennessee river this afternoon; City of Saltville for Tennessee river and way landings at 11:30 o'clock last night; George Cowling for Metropolis this morning and afternoon on time; Dick Fowler for Cairo this morning at 8 o'clock; Chattanooga for Evansville early tomorrow morning; Royal for Goleconda this afternoon at 2 o'clock; Bettie Owen for Brookport and regular Illinois landings this morning and afternoon; Kentucky for Riverton, Ala., this evening about 7 o'clock with a big trip.

The City of Saltville was heavily laden last night when she arrived. She had on board many passengers, including the Saltville and Telly-Ho clubs of St. Louis, who are making their annual river excursion.

The Dick Fowler departed at 5 o'clock yesterday afternoon for Evansville. She arrived at 4 p. m. Tomorrow afternoon she will be in again and departs Monday for Evansville.

The Clyde returns from Waterloo, Ala., Monday night and goes to Commerce, Mo., after a load of wheat. She returns to the Tennessee river Wednesday evening.

The Dick Fowler carried a large number of young people on the excursion last night given by the Sunday school classes of Miss Carline Sowell and Mrs. David Koger, of the First Christian church. The boat went to Metropolis and returned.

The Mary Anderson will probably bring a light tow of coal in from the mines at Caseyville today.

The W. T. Hardison is overdue with a tow of Tennessee river ties. The ferryboat Bettie Owen will run an excursion today, leaving at 2 p. m., and returning at 6.

The St. Louis Waterways Journal says:

The ten years' contract of the coal combine expires about December 1, and all steamboatmen are anxious to see what will turn up. Of course, all sorts of rumors are out and it is hard to tell what will be doing, but it is almost an absolute fact that Capt. Harry Brown and John H.

Jones are preparing to "start something," and from present indications there will be several independent coal operators in the field after October 1. It is also a matter of fact that the Combine has been extremely economical recently, whether it is for the purpose of making a good showing or whether it is a case of those on the inside "grabbing" as much as possible is a question. At any rate, there is much dissatisfaction from the outsiders, that is, those that are not drawing fat salaries, because there was no dividend the last time when there should have been one. This looks bad in cold type, but is common talk history. Wherever it is possible two or three boats are laid up close together and a yearly hired captain is found to act as watchman on all boats. Never in the history of the combine have men been laid off as at present.

Official River Forecasts.

The Ohio—At Paducah will continue rising during the next 24 hours. At Cairo, will begin rising this afternoon or tonight and rise for 36 hours.

The Wabash—At Mt. Carmel, not much change during the next 36 hours.

The Tennessee—At Florence and Riverton, will continue rising 24 to 36 hours. At Johnsonville, will continue for 2 days.

The Mississippi—From below St. Louis to above Cairo, will continue falling during the next 24 hours.

Danger in Empty Whisky Barrel
Jonesboro, Ark., Aug. 7.—F. W. Snyder, of Weiner, was the victim of a peculiar and very serious accident Wednesday, when an empty whisky barrel exploded. The barrel had been in the sun and gas had formed in it, which was escaping. Snyder struck a match on the top. He was struck on the head and received a severe cut on his leg. He was unconscious several minutes, and is still in a serious condition.

Turks Aroused.

Constantinople, Aug. 7.—Forty thousand Albanians assembled in the monastery and sent an imperative message to the government, threatening that unless effective measures were adopted the entire

Muslim population in Macedonia will march against Greece. The grand vizier hurriedly replied that the government is taking active steps to prevent the annexation of Crete by Greece.
